

WISH COLLECTION

# Wish

porcelain stoneware

Wish (in the Stories display collection) is inspired by the style of hand-glazed bricks typical of Portuguese traditions. The collection is made of porcelain stoneware and features an extremely soft semi-matt glaze with 7 intense, luminous colours: White, Petal, Yellow, Brick, Green, Light Blue, Black. The collection is available in the new 2"x12" size.

As with all the options in the Storie display collection, the aim is to achieve a product that looks handmade using industrial methods, so an attempt was made to bring all the aesthetic details of the original handmade material into the industrial ceramic version:

- surface characterised by a very slight undulatory movement caused by its extraction from the die
- edges obtained by knife-cutting the raw piece, resulting in light and soft irregularities
- extremely opaque and brightly coloured glaze

Wish responds to the demands of a consumer looking for a solid colour product with a more artisanal look than the basic solid colour options already on the market. The handcrafted-looking substrate and intense palette of colours bring richness to an otherwise extremely minimalist product.

The shaping is only present on the surface of the tile, thus lending a certain mobility to the piece; the bottom edges are perfectly straight, so that the tiles can be installed precisely. The installed product therefore has a handcrafted look, while avoiding a rustic effect.

Wish is for use on walls only.
