FAN-TASTIC

We took an age old fan pattern that dates to Roman times where they once paved the Piazzas and Palazzos with indigenous cobble stone versions. Here we reinterpreted the pattern into a modern porcelain ceramic tile mosaic version that evokes the imagery of the original but in a very modern and fresh way. The fan can be used in foyers, bathrooms and also vertically for dramatic feature walls. Each fan is a single sheet designed for easy installation and can be used as a single color, checkerboard or combined with a dramatic grout and yes, we are truly big fans of this one!
