Ispirate a motivi tradizionali di origine orientale, le Strutture 3D Yubi e 3D Maki interpretano i piccoli formati attraverso disegni tridimensionali dal forte carattere decorativo. Le piastrelle sono visivamente scandite in tre elementi allungati, dalle forme morbide e arrotondate o da elementi circolari con effetti di bassorilievo. La grafica segue queste particolari geometrie, accentuandone la suddivisione attraverso leggere irregolarità lungo le incisioni in rilievo. Il risultato sono trame dinamiche, capaci di creare suggestivi giochi di luce e ombra e di valorizzare con personalità ambienti residenziali e spazi commerciali.

Inspired by traditional Asian motifs, the Yubi and Maki 3D Structures reinterpret small-format tiles through distinctive three-dimensional decorative designs. The tiles feature patterns visually defined by three elongated elements with soft, rounded shapes or by circular elements with bas-relief effects. The surface graphics follow these distinctive geometries, emphasizing their divisions through subtle irregularities along the raised grooves. The result is a series of dynamic textures that create captivating plays of light and shadow, adding personality to both residential and commercial spaces.

Inspiriert von traditionellen Motiven asiatischen Ursprungs interpretieren die 3D-Strukturen Yubi und Maki die kleinen Formate durch ausdrucksstarke dreidimensionale Dekore neu. Die Fliesen sind optisch durch drei längliche Elemente mit weichen, abgerundeten Formen oder durch kreisförmige Elemente mit Flachrelief-Effekten gegliedert. Die Oberflächengrafik folgt diesen besonderen Geometrien und betont ihre Unterteilung durch leichte Unregelmäßigkeiten entlang der Reliefvertiefungen. So entstehen dynamische Strukturen, die faszinierende Licht- und Schattenspiele erzeugen und Wohnräumen wie auch gewerblich genutzten Bereichen eine unverwechselbare Persönlichkeit verleihen.

Inspirées de motifs traditionnels d'origine asiatique, les Structures 3D Yubi et 3D Maki réinterprètent les petits formats à travers des dessins tridimensionnels au fort caractère décoratif. Les carreaux sont visuellement rythmés par trois éléments allongés aux formes douces et arrondies, ou par des éléments circulaires aux effets de bas-relief. Le graphisme de surface suit ces géométries particulières, accentuant leur subdivision par de légères irrégularités le long des incisions en relief. Il en résulte des trames dynamiques, capables de créer de séduisants jeux d'ombre et de lumière et de donner une personnalité affirmée aux espaces résidentiels comme aux espaces commerciaux.

Inspiradas en motivos tradicionales de origen asiático, las Estructuras 3D Yubi y 3D Maki reinterpretan los pequeños formatos mediante diseños tridimensionales de marcado carácter decorativo. Las piezas presentan una composición visual definida por tres elementos alargados de formas suaves y redondeadas, o por elementos circulares con efectos de bajorrelieve. La gráfica de la superficie sigue estas geometrías particulares, acentuando su división mediante ligeras irregularidades a lo largo de las incisiones en relieve. El resultado son tramas dinámicas capaces de crear sugerentes juegos de luces y sombras y de aportar personalidad tanto a los espacios residenciales como a los comerciales.
