GOLD

Una collezione vintage che ripropone un classico tipico del metrò parigino, dei primi anni del secolo scorso, nei formati: 7,5x7,5 e 7,5x15 diamantato, 7,5x15.

La serie è di particolare effetto grazie al suo aspetto tridimensionale e al gioco di luce ed ombra che la sua superficie sfaccettata crea in presenza della diversa illuminazione.

La gamma di colori riproposta in colori tradizionali, grazie ai molteplici pezzi speciali a completamento rende le serie metro fruibile in diversi ambienti sia pubblici sia privati.

A vintage collection which proposes a typical classic tile being used in Parisian underground stations since last Century.

Its three dimensional look is really catching and the cut surface creates light and shade effects under lighting.

The traditional colours and the various matching special trims make Metro range suitable both for public and private locations.

SPECIAL TRIMS

La serie metro si completa con i suoi pezzi speciali in gres porcellanato smaltato.
 Sempre più richiesti, sia per questioni di igiene e sicurezza, che per il loro valore estetico, facilitano la posa e donano un gusto squisitamente retrò agli ambienti.

Special trims in glazed porcelain stoneware integrate metro range.
 They are more and more demanded, both for safety and hygiene matters and for their aesthetic value.
 Special trims simplify the laying and give a delighfull retrò taste to the settings.
