Product Details

- Patina is a low temperature coated glass tile with a double layered backpaint. Unlike most mirror backed glass tile, Patina Glass can be successfully installed in intermittent wet locations such as tub or shower walls including steam shower walls.
- Each piece of Patina is unique. In an effort to achieve a balanced and visually consistent installation the entire Patina Glass order should be blended either prior to or during installation.
- The minimum grout joint requirement for Patina is 1/16". Patina Glass should never be installed without a grout joint.
- Patina Glass tile can be easily cut with either a score and snap tool or wet saw with a continuous rim diamond blade made for cutting glass tile. Do not dry cut Patina Glass with a power tool.
- Patina Glass should be cleaned with a pH neutral tile cleaner or an alkaline based tile cleaner. Harsh abrasive or acidic cleaners should be avoided.

Patterns (Available in all colors)

FIELD TILE	Parent Code	Pattern	Finish	Actual (in)	Actual (mm)	Coverage Per Sheet	Thickness	Pool, Spa & Water Feature
	pgr3	3.5" x 12"	Gloss	3 5/8" x 11 3/4"	92 x 300 x 4mm	0.30 sf	1/8"	No

Suggested Usage

Interior Wall

Shower Wall

All tile and natural stone products may vary in color, shade, finish, and size. Upon delivery, inspect the entire tile order prior to commencing tile work. Grout color selection may have an impact on the appearance of the tile. Installation constitutes acceptance. No claims will be accepted after installation.
