Tambour Style: Special Order Item - Unsorted Cherry with Sap Wood

# SOLID WOOD TAMBOUR

TAMBOUR is a grooved/slatted wood product designed for vertical, horizontal and diagonal interior installations. Available in a range of domestically sourced wood species and supplied on patented flexible latex paper backing for an easy installation. The material can be used for walls, ceilings, concave and convex installations and is perfect for columns. Material is supplied unfinished. Available finish options include stain, paint, oil, or urethane.
